-  gajendra-pandeya-91704a175

## PROFILE

Innovator, Quick Learner and Tech Enthusiast

## EDUCATION

**Bhaktapur Multiple Campus**  
Dudhpati, Bhaktapur  
2018-running (Bsc- CSIT)

**SudurPaschimanchal Academy**  
Dhangadhi, Kailali (+2 Sci)  
2016-2018

## SKILLS

Java/Kotlin  
C/C++  
Flutter

## CERTIFICATIONS

- Android App Developer Udemy Certification (By Mesiam)
- Java Developer Udemy Certification (By Tim Bulkacha)

## PROJECTS

### Memory King (An Image Matching Game)

A classic image matching game that helps to boost memory power. Users can play with available game images or can create their custom games.

<https://play.google.com/store/apps/details?id=com.codermonkeys.mymemory>

### Trackie (A run Tracking App)

This app showcases the use of best practices for Modern Android development. The primary concern is to learn the use of MVVM architecture along with the Jetpack components.

Technologies Used:

- Kotlin
- MVVM Architecture
- Jetpack Components
- Room Database
- Dagger-Hilt for dependency Injection
